NOTES: When sending in samples to us please ensure that they are correctly and safely packaged and that they are clearly labelled. The label must not detach itself and should always include the following particulars:
1. Contents (exact description of product) 2. Company address / contact person 3. Date.

Sample Submission Form

Samples contain toxic or bio-hazardous substances

Customer comments:

Please send us **10 to 50 µl** of each sample with ca. $10^9 - 10^{10}$ particles/mL, respectively.

For multiple measurements, please send more sample material.

Samples identified as hazardous or harmful to the environment, will be sent back to the sender at his own expense.

Date, Signature
